

STEP 1 APPLY AUTOLOGON FEATURE USING SYSINTERNAL'S AUTOLOGON

DOWNLOAD AUTOLOGON FROM THE INTERNET ADDRESS PROVIDED BELOW:

[HTTP://DOWNLOAD.SYSINTERNALS.COM/FILES/AUTOLOGON.ZIP](http://download.sysinternals.com/files/AutoLogon.zip)

OR READ MORE ABOUT AUTOLOGON, BY CLICKING THE LINK BELOW

[HTTP://WWW.MICROSOFT.COM/TECHNET/SYSINTERNALS/SECURITYUTILITIES.MSPX](http://www.microsoft.com/technet/sysinternals/securityutilities.mspx)

UNZIP AUTOLOGON.ZIP AND DOUBLECLICK THE AUTOLOGON.EXE

ENTER YOUR PASSWORD AND CLICK ENABLE

STEP 2

TO ENABLE THE LOGON SCREEN AFTER THE PC HAS AUTO BOOTED, TO ENSURE THAT THE PC OR SERVER SECURES ITSELF, PLEASE FOLLOW THESE INSTRUCTIONS

1. GO TO CONTROL PANEL
2. DOUBLE-CLICK ON THE "DISPLAY" ICON
3. CLICK ON THE SCREEN SAVER TAB
4. SELECT A NUMBER IN THE MINUTES SCROLL BOX
5. CHECK THE BOX THE SAYS "ON RESUME, PASSWORD PROTECT"

THATS ALL THERE IS TO IT!

YOUR PC NOW WILL AUTOLOGON. WE SUGGEST THAT IF THE PC OR SERVER IS UNATTENDED, USE THE LOWEST NUMBER FOR MINUTES TO RESUME ON PASSWORD PROTECT.
